Thanks to ecosoft, I no longer need to spend all day trying to scrub the shower, just five minutes and it's back to sparkling like new. I am definitely happy with the results.

Heidi Mouwen, Derrymore, Queensland.

For me it is all about my hair. After a lifetime of frizzy hair and trying hundreds of different hair products, the (ecosoft) ShowerSoft unit gives me smooth, frizz free hair every time!

Colleen Farrell, Karrinyup, Western Australia

I have already noticed a difference. I washed some towels before my holiday but didn't take them. In contrast the towels I've washed since the installation are really soft and fluffy the difference between the two is amazing. There are no longer any watermarks on the taps and I know you won't appreciate this, I need less shampoo and my hair is really much softer. I've even bought a new kettle, gone are the days of de-scaling!!"

Mary, Bristol, UK
